Dear Steve,

I appreciate you taking your time to meet with me in the Mayor's office to discuss some of the issues surrounding the review process for new construction. Your insight on the problems faced by the building industry in their efforts to get permits issued will help us streamline the system.

Thank you again for serving as chairman for our last two Road Bond packages. Your hard work made each of these projects a great success. I look forward to the completion of all the new road projects and the improvement to our city infrastructure. You should take great pride in the positive effect that you have had on the City of Raleigh and its transportation plan.

Thank you again for all of your help with the permitting issues and for the many quality projects that you have built in the city. The City of Raleigh is fortunate to have quality developers like you working to improve our community.

Sincerely,

Paul Y. Coble
Mayor of Raleigh
